A Deceased Relative Makes a Modest Laborer Happy.

George Bangley, of Hamtown, was yesterday informed that he had been left 1,500 marks by an uncle who just died in Germany. Mr. Bangley is a modest unassuming young man who is employed as a moulder in the Stone works. That he is much elated over his windfall is but mildly expressing it.

The value of a German mark is about 25 cents, which means something like \$3,750 of a legacy.

NERVE DEATHS

The Number Growing at a Frightful Rate.

The Proportion Has Increased 20 Per Cent. in 40 Years.

The Boston Journal Asks, "What the Remedy?"

And Finds the Answer Not a Hard One.

A Quarter of All Deaths Due to American Disease.

The Boston Journal is certainly to be admired.

One of Boston's greatest newspapers, it frankly devotes some of its energetic editorial space to the subject, which at this season is of more importance to this and every community than all other topics.

"One hears the voice of the man whose knowledge of nerves is almost unbounded," says the Journal, "saying that beyond any dispute nervousness is growing upon us at a frightful rate."

Quoting from Dr. Weir Mitchell it continues: "In some busy centers he finds that the number of deaths due to nervous causes has increased 30 per cent. in 40 years; that one-fourth of the deaths now are from nervous diseases. His opinion is confident, too, that the Americans are, from this cause, becoming a short-lived people."

A clear statement of the nervous weakness among the dwellers in cities and towns would send a pang of horror and alarm through the country.

Women are more under the influence of the terrible scourge than men, and town doctors note town country folks.

The Journal asks what is the remedy and finds an answer readily.

Hundreds of tired mothers, anxious housewives, school teachers and too ambitious scholars—the very flower of the American womanhood—vie to the strain of the serious affairs of life.

Overwork and unnatural worry condemn a host of American women to spend their after years on a sofa or in a sick room, and to be a burden instead of a hope to those who are dearest to them.

Often times excruciating pains as in neuralgia, rheumatism, and heart trouble, but more often (especially in the spring) "that tired feeling," is nature's cry for better nutrition in order to resist the fearful strain on the nerves and vital organs.

The remedy is known to every physician and to thousands who have been benefited by it. Men and women who find themselves getting irritable, nervous, thin, "run down" and ailing should take Paine's celery compound. It feeds tired exhausted nerves, stores the blood with the food for the wasted tissues, and purifies it of the impure humors which result from its stagnant, unhealthy condition.

Nothing has ever equaled Paine's celery compound for giving tone to the stomach and a renewed appetite. It strikes to the root of rheumatism, neuralgia, diseases of the heart, the liver, kidneys, and all disorders due to poor, thin blood and underfed nerves. Poor appetite, emotional headaches, loss of strength, nervous debility, and a general, unhealthy condition of the skin at this season are sure signs of nervous weakness.

Paine's celery compound will rob one of the "run down" feeling, the lassitude and despondency that come from badly nourished nerves, thin, pale blood, and underfed organs of the body.

New life, a buoyant feeling, and the joyousness of health will come when plenty of good red blood begins to fill the arteries and invigorate the system.

This is just what Paine's celery compound is doing for thousands of men and women throughout the whole extent of the country.

BURGESS MAXEY'S ADDRESS.

The Chief Magistrate of Forest City intends to Preserve Order.

Special to the Scranton Tribune.

FOREST CITY, Pa., March 9.—Burgess Benj. Maxey has had the following printed in the Forest City News:

TO THE PEOPLE OF FOREST CITY:

I wish to announce, since you have by your ballots elected me to the office of burgess, that I have taken the oath and have been duly installed into the duties of said office. Being fully aware of the responsibility that I have assumed I deem it proper at this time to ask the united support of all law abiding citizens to aid me in the discharge of the duties set forth by law.

I propose to carry out the law as set forth for boroughs by our state legislature. Also our own ordinances that have from time to time been framed, shall be enforced as occasion requires. With your help we can overcome a great many of the evils that do exist.

It might be well at this time to enumerate a few of them: First, common loafing; second, standing in groups on the sidewalk; third, profanity at all hours of the day and night; fourth, loud and boisterous talking; fifth, standing on stoops of stores and hotels, pointing our sides with tobacco juice and rendering them impossible for ladies and other; sixth, Sunday decoration in all forms shall be prohibited, and I respectfully ask all business men to close their places of business on Sunday (except those who are allowed by law to be open certain hours of the day); seventh, the habit of young men and boys playing in the middle of the streets and taking the risk of being run over by teams; eighth, snow balling is too much indulged in by those who pay no regard to the injuries it might inflict on those passing by.

I appeal to the reason of those who have been indulging in riotous conduct to desist and co-operate with me, as it will greatly aid in making the work successful.

The police now appointed will be responsible for the maintenance of the peace and shall arrest all persons caught in any act that disturbs the peace of the borough. I also recommend that the officers making arrests should use calm and cool judgment and not use harsh means, except in extreme cases where it is deemed absolutely necessary to complete the arrest.

B. MAXEY, Burgess.

WEDDING BELLS CHIME.

Marriage of a Popular Young Couple at Honesdale.

Special to the Scranton Tribune.

HONESDALE, March 9.—When it became rumored about last evening that Henry Schwenley and Miss Julia Freeman were about to be married, the lights in the Episcopal church called in a large number of people, but the young couple, accompanied by James E. Pinckney and Miss Clara Hartung proceeded to the Presbyterian parsonage, where they were united in holy wedlock by Rev. William H. Spaulding.

Both parties are well known by Honesdale's young people and their sudden marriage created quite a stir.

The Press as Evangelizer.

Altitude Leader.

The newspapers of today give far more space to religious matters than the casual reader realizes. The sermons of famous preachers are published weekly in thousands of secular journals. The city papers of a Monday team, with accounts of the services of the day before, church conferences and missionary conventions form a prominent feature in the news of the day. The Sunday school lesson and Christian Endeavor topics receive due attention from hundreds of newspapers. This broad dissemination of religious news and comment must have a marked effect. Instead of turning people away from the Bible it must draw them to it.
